

Team Paradise

Members Present: John, Jason, Hunter, Adam, Connor, Taicheng

- Discussed methods regarding what software to use to unit test
- After research we came to the conclusion of using selenium
- Downloaded and installed selenium
- Learned how to use the software to implement our testing
- Began building test 1
- Finished test 1
- Began building test 2
- Encountered difficulty with javascript popup
- Sorted out unit testing issue and alert box confirmation
- Finished Unit testing 2
- Finished third test which tests the game launches properly
- Built document and uploaded to github
