- Working on Milestone 2:
- Finalized using Asana for project management - Members have experience
  - Created project in asana
  - Assigned tasks
- AI in Paradise
  - Flappy bird type game
  - Java Script
  - Got rid of Unity idea
  - SQL Backend
- Had a great Agile discussion
- Gantt Chart Creation
- Brainstormed features
  - Levels
  - Background changes the farther you go
  - Two dimensional - constant motion in one, user controlled motion in the other
  - Use Alan Paradise's face as moving object
  - Use Alan Paradise's voice for sound effects
  - Theme music
  - Changing environment / moving background
  - High Score storage in SQL database
  - Data Fields stored in Database
  - Potentially protect against SQL code injections
  -
- Created functional and non-functional requirements
- Created project plan by each sprint
- Created three-week sprint to create database and user interface
-
